

**NEWSLETTER 1**

**JULY 2022**

# **WELCOME TO WWW PROJECT**

**SUMMER 2022 NEWSLETTER**

The WWW project kicked off on 4th and 5th of May 2022. During this meeting the project partners discussed the next steps that would be taken for the project. A monthly online partner meeting was set up so that the partners could share any advances they had made and to help upcoming events such as the LTTA in Granada and general project organisation.

The LTTA in Granada will aimed at the target group of the project which are women entrepreneurs with disabilities or in risk of social exclusion. The LTTA will aim at equipping the project team members with deep understanding and reflection on the concept and will serve as preparatory training on how to organize and train the disabled women. The activities during the training will also cast a light on the necessary elements to be included in the video scripts and that would bring benefit to the course.

Co-funded by  
the European Union

The participants will undergo training based on results elaborated by the consortium and evaluate them and provide feedback on development of beta versions of the Project Results. The following are the project expected project results that the consortium hopes to achieve during the LTTA and the project lifespan:

1. Thorough understanding of the Project innovation concept and ability to put it into practice.
2. Improved knowledge, competences, and skills in terms of developing learning content.
3. Improved training facilitation skills.
4. Better preparedness to develop the PRs of WWW.
5. Boosted project team spirit.
6. Increased motivation to obtain high quality results within the project and greater cooperation.
