We planned and started the development of the different Project results to ensure a smooth development.

LTTA IN GRANADA

From 19th to 23rd September, the LTTA was held in Granada with the coordination of our host Fundación Docte Omnes and the rest of the partners.

Participants for each partner country were involved to give the consortium a feedback on how each Project Result is planned. With their direct feedback and perspectives as women with disabilities who are starting their own entrepreneurship, we can now improve our materials and start working more deeply. During this LTTA we also record interviews to these participants which will be included in the Project Result 1.
